Dear Antique Car Enthusiast,

The 29th running of The Willowdale Steeplechase is fast approaching and we hope you will plan on joining us this year by exhibiting your antique car, Saturday, May 14, 2022.

Thank you to our sponsors of the 2022 Antique Car Display, **Last Chance Garage and Weymouth, Swayze, and Corroon Insurance. Please note, modified cars or “hot rods” are not permitted, and all cars must be from 1985 or earlier.**

All antique cars will be displayed on The Hilltop section of The Willowdale Steeplechase parking area which allows more space and greater visibility for guests to view the antique cars.

Your \$60 registration fee includes admission for the driver, one passenger, and your antique car. Additional passes must be purchased for anyone else in the vehicle, over the age of 12yrs old. Registration **must be received by April 24th**. Registration guarantees your space and your name plus your vehicle’s description listed in the race day virtual program. Your registration will secure you a unique **Paper Scannable** pass to print at home and bring with you for admission into the Willowdale Steeplechase Gate #2. Additional General Admission tickets are available online at www.willowdale.org for \$45pp prior to May 9th. General Admission ticket prices go up 15% from May 9th – May 13th. No tickets sold on race day. Enjoy a picnic and tailgate in your parking area, but remember no tents, canopies, or open flames. Races are held RAIN OR SHINE.

Please reply at your earliest convenience using the attached form and email to Lisa Hatcher at lisa@willowdale.org or mail to: Willowdale Steeplechase, Attn: Lisa Hatcher, 101 East Street Road, Kennett Square, PA 19348. A limited number of reserved spaces are available. Last year we sold out! Reply early to reserve your space and avoid the late fee. Coffee and donuts will be provided beginning at 9:00 AM by The Last Chance Garage and Weymouth, Swayze, and Corroon Insurance.

The Willowdale Steeplechase is held to raise funds for the following beneficiaries: The Stroud Water Research Center, and the University of Pennsylvania School Of Veterinary Medicine New Bolton Center.
